Please see overleaf for dimensions of standard size range. Non-standard sizes also available.

STANDARD SPECIFICATION

GRP Cabinet, fire retardant to BS476, part 7, class 2. Doors hung on stainless steel hinges, with chrome-plated steel closing / locking system (stainless steel available if required). Weatherproof seal giving protection to IP65. Standard colour - light grey.

ACCESSORIES / OPTIONAL EXTRAS

Mounting

All cabinets can be supplied with internal Unistrut type rails and/or mounting panels for instrumentation/equipment. Facilities can be provided for base, wall or pipestand mounting of cabinets.

Insulation / reinforcement

Standard construction is single skin GRP. Sandwich construction is available with timber core for additional reinforcement or polyurethane foam core for additional thermal insulation.

Heating / ventilation

Natural ventilation by louvre panels or forced ventilation by means of extraction fans can be incorporated. Electric heaters to suit hazardous and non-hazardous areas can be fitted.

Cable and tubing entries

A variety of facilities for entries can be incorporated, including gland plates, cable transits and grommeted holes.

Viewing windows

Perspex or toughened glass windows, sealed in weatherproof moulding, can be fitted in doors or wall of all cabinets.

The above is by no means an exhaustive list of available accessories. Standard cabinets can be customised to suit any application, and special sizes can be readily manufactured to order. Explain your requirement to us, and we will propose a solution!
